SUMMARY

Passionate and detail-oriented Web Developer with a degree in Computer Science and hands-on experience in modern front-end technologies. Proficient in **HTML, CSS, JavaScript, React, and responsive design**. Built real-world projects including a **portfolio website, e-commerce platform**, and a **blog system**, covering the full development cycle from design to deployment.

Strong in **problem-solving**, UI/UX implementation, and team collaboration. Actively seeking a **junior web developer** or **frontend developer** role to apply skills and grow in a dynamic, innovative tech environment.

EDUCATION

Bachelor of Science (BSc) - Computer Science

Yadava College, Madurai

May 2021 - Mar 2024

Higher Secondary (class 12th) - Computer Science

Tagore Vidyalayam, Madurai

May 2020 - Apr 2021

Percentage: 72.9%

Higher Secondary (class 10th)

Tagore Vidyalayam, Madurai

May 2018 - Mar 2019

Percentage: 64.4%

EXPERIENCE

Solartis LLC – Madurai, Tamil Nadu

Operations Associate – Trainee

June 2025 – Present

- Part of the **N2G** team, working on the **Finalization and WC**.
- Handling policy setup, data entry, and insurance document validation.
- Assisting with policy updates, renewals, and rule testing.
- Using Excel and internal tools to ensure workflow accuracy and meet deadlines.

Skills:

Policy Processing | Insurance Operations | Data Entry | MS Excel
Underwriting Support | Workflow Tools

PROJECTS

Online Movie Ticket Booking System (*In Progress*)

Role: Frontend Developer | **Tech Stack:** HTML, CSS, JavaScript, React (or Vue/Angular, if different), Firebase (or your backend), Git and GitHub

Description:

Developing a responsive web application that allows users to browse, select, and book movie tickets online. The system includes real-time show listings, seat selection, and booking confirmation features. This project demonstrates practical application of modern frontend development and user interface design.

Key Features:

- Movie Listing UI** with filters by language, genre, and showtime
- Interactive seat selection** interface with visual feedback

- Booking form with user validation and auto-generated ticket PDF available for easy download after purchase
- Responsive design optimized for **mobile and desktop**
- Version-controlled with **GitHub** for tracking and collaboration

What I'm Learning/Gaining:

- Real-world implementation of **React components** and **state management**
- Improved **form handling**, **event-driven UI**, and **modular coding**
- Experience with **project planning**, debugging, and **UI/UX enhancements**

Personal Portfolio Website – <https://www.ramsurya.me/>

Role: Frontend Developer | **Tech Stack:** HTML, CSS, JavaScript, React, Tailwind CSS, Node.js, Git and GitHub.

Description:

Designed and developed a personal portfolio website to showcase my technical skills, creative projects, and professional experience. The site presents my work as a frontend developer and integrates multimedia content such as photos, blogs, and embedded audio, creating a dynamic and engaging user experience.

Key Highlights:

- Built using **React.js** with **Tailwind CSS** for a modern, responsive UI.
- Deployed on a custom domain with **Git-based version control** and CI/CD workflow.
- Optimized for performance, accessibility, and SEO.
- Designed with mobile-first principles and smooth navigation.
- Serves as a **digital resume and branding tool** for job outreach and client visibility.

Outcome:

- Improved professional presence with a centralized platform for showcasing work.
- Successfully used during job applications and freelance client engagements.
- Attracted recruiters and professionals through seamless integration with social platforms and portfolio content.

SKILLS

HTML, CSS, JavaScript, Bootstrap, React, Git & GitHub
